GA 08-1. Authority

W. Va. Code § 18B-1-6

GA 08-2. Purpose

- 2.1 The mental and physical health and well-being of employees and students is vital to the success of the West Virginia School of Osteopathic Medicine (“WVSOM”) and our students and graduates, and is necessary to maintain safety and high standards of education and health care. The illegal use or abuse of drugs and/or alcohol has a clear and adverse effect on the educational environment. WVSOM has the right and obligation to provide employees and students with a safe, healthy, efficient, and effective learning and work environment free from influences of illegal chemical substances and the misuse of legal substances.
- 2.2 Employees, students, preceptors, patients, and the general public must be confident that safety will not be compromised by impaired WVSOM employees or students and that WVSOM employees and students will not be involved with any Prohibited Substances or engage in any Prohibited Activity, as defined herein. Further, to promote the responsible use of alcohol in accordance with West Virginia law, WVSOM must prohibit the dispensation or consumption of alcohol on campus and at student organization functions unless expressly authorized and only if certain criteria are met.
- 2.3 WVSOM does not tolerate misuse of legal substances, or the manufacture, possession, use, sale, trade, distribution, dispensation, receipt or transportation of any illegal substances either on or off campus, as those activities are incompatible with the educational mission of WVSOM. Therefore, the purpose of this policy is to address employee and student substance abuse and provide for drug testing of employees in certain instances, as set forth below.
- 2.4 Consistent with its mission, WVSOM will utilize educational strategies as the primary approach to substance abuse. However, all members of the WVSOM community should know that any violations of local, state, or federal laws will be subject to prosecution to the fullest extent of the law and any violations of WVSOM policies and procedures will be subject to administrative action, up to and including termination of employment or dismissal from WVSOM.
- 2.5 Those persons who are currently involved in the abuse of legal substances or the use of illegal drugs and who seek assistance in overcoming these addictions through a viable and

recognized treatment program will be supported in these efforts to the extent possible under the particular circumstances.

10.2 WVSOM certifies that it will provide a drug-free workplace by:
