WVSOM Interactive Campus Map

When launching the map you get the default view below:

Click the box HERE to expand the map
Click the box HERE to expand the legend.
The expanded View is shown below:
You can zoom in and out using the plus and minus buttons.
What is a Layer in a map?

A map layer in Geographic Information Systems (GIS) contains groups of point, line, or area (polygon) features representing a particular class or type of real-world entities such as customers, streets, or postal codes. A layer contains both the visual representation of each feature and data.

Maps in a Geographic Information System are made by combining multiple layers.

The WVSOM Campus Map has the following points and layers that can be toggled on or off with the checkbox in the legend.

Click a point for more information, such as directions, or click the name in the legend on the left hand side.

On the bottom of the legend you can change the base map from street map to the google satellite view.
Main Points on the Map:

This is the point that marks the West Virginia State Police Security Office on campus

This is the point that marks the West Virginia State Police Dispatch on campus

Points for navigation to buildings and properties associated with WVSOM

- Click this icon to get directions to any point marked in the layer with a point marker.
- An external building picture will also be visible when you click the icon.

Parking lots for navigation

- Use the map to get directions to any parking lot associated with WVSOM.

WVSOM buildings are outlined in a green shade

- Click the shaded area and view an interior diagram of the building.

WVSOM parking areas are outlined in a grey shade
State Police Campus Security Office

911 Emergency/Blue light Phones.

WVSOM AED Locations

State Police Station on 911 Blue light Layer

WVSOM Campus Property

Mason & Berry Property
Additional Mapping Layers

Campus Road: This is a road on campus which is not displayed on Google maps but is included in this custom layer of the WVSOM Campus map.

Campus Footprint: This is a shade layer that shows the campus as a whole*

- *If the Campus Footprint layer is turned on you will have to turn off the layer to access some points on the map.

Main building: The main building is divided into sections.

- This layer shows the different sections A, B, and C in the Main building and where they are located.
Points of Interest:

- O’Café in the Student Center
- Campus bookstore in the Student Center
- Greenbrier Park
- Campus Parade ground shade layer
- Main WVSOM Entrance to the school
